-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election with traverse of Species I in the reply filed on January 9, 2006 is acknowledged. The traversal is on the ground(s) that the Examiner has not stated why the species are independent or distinct as required. The following supplemental restriction is provided to address Applicant's concerns. Applicant is reminded that a complete response must include a listing of the claims readable on the elected species, which was not provided in the response filed on January 9, 2006.

This application contains claims directed to the following patentably distinct species:

- a. Species I, as shown in Figures 1A, 1B, and 2.
- b. Species II, as shown in Figures 1C and 2.
- c. Species III, as shown in Figures 1A, 1B, and 3-5.
- d. Species IV, as shown in Figures 1C and 3-5

The species are independent or distinct because they contain mutually exclusive characteristics. For example, in Species I and III, the cell body 107 is a single layer, while in Species II and IV, the cell body 107 is a multi-layered structure. Further, in Species I and II, the insulating layer 121 overlies the cell body 107, while in Species III and IV, spacers 125 instead overlie the cell body 107.

Art Unit: 2815

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic to all species.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
